

Advanced pumping technology

What a Great Idea!

Economic
and Powerful.

The **PRAXIS IDEA** is the realization of the **KAPPA** idea to offer to its clients a very economic machine that is also powerful and has features similar to the bigger **KAPPA** machines.

This **complete** and **efficient** machine has maybe the richest supply list with incomparable quality:

- Heavy duty pump gearbox, imported from Italy.
- Screw pump imported from Germany.
- Integrated batching mixer (**PRAXIS IDEA M**)
- Durable mixer gearbox, imported from Italy.
- Twin-cylinder air compressor.
- Sieving screen with electric vibrator imported from Italy.
- Rubber hoses special made for plaster, imported from Italy.
- Frequency inverter by Mitsubishi.
- Robust chassis.
- Complete and ergonomic control panel.
- Material pressure gauge.
- Long spray gun with different size nozzles.
- Steel hose couplings.
- Mixer shaft with hard chromed ends.

**Easy to use
and productive!**

Technical data	PRAXIS IDEA	PRAXIS IDEA M
Pump gear motor	4 kw, 440 V with frequency inverter	4 kw, 440 V with frequency inverter
Air compressor	270 l/min, twin cylinder	270 l/min, twin cylinder
Output*	20 l/min	20 l/min
Delivery height max*	30 m	30 m
Delivery distance max*	50 m	50 m
Grain size max*	3 mm	3 mm
Hopper capacity*	100 l	100 l
Loading height	675 mm	1130 mm
Mixing system	NO	YES
Dimensions LxWxH	1365 x 620 x 695 mm	1365 x 620 x 1400 mm

*Depends on material type, quality, composition and consistency, diameter of conveying hose, conveying height and distance and the size of the screw pump..

Performance of the machine depends on the mix design. Sand must be graded and mix must contains a certain amount of fines and admixtures for spray plastering.

All above technical data and descriptions and information in this brochure may change without a notice, you are kindly advised to contact us for any information concerning this product and its components and get the latest updates.
